About Bard Ventures

Bard Ventures Ltd. is listed on the TSX Venture Exchange, has been engaged in the business of the acquisition, exploration, and if warranted, development of natural resource properties since inception.

Properties

Lone Pine Property

- Initial Results of drill program indicate 72m of 0.07% MoS₂
- BD-07-02) returned 0.07% MoS₂ over the entire 489.4 meters
- BD07-16 intercepted 284m of 0.06% Mo
- Recent drilling on Quartz Beccia Intercepts 240m of 0.06% Mo
- 100% owned by Bard Ventures

- Can easily and rapidly
- Located short distance from existing highway and railway and has gas pipeline, power line and sub-station pass through the property

- RECENT DRILLING
- Alaskite Zone and Quartz Breccia
- 730m of 0.1% Mo
- 130M of 0.2% Mo

- Granby Zone 1976 Drilling
- 36.6 m of 0.76% MoS₂
- 18.3 m of 0.30% MoS₂
- Both ended in mineralization at 40 meters

Wasi Property

- located on the south side of the Osilinka River, 150 kilometres northwest of Mackenzie, B.C.
- Option agreement to earn a 50% interest in the property with Selkirk Metals Corp.
- In 1992 Cominco intersected 6.35% zinc, 1.07% lead and 16.5g/t silver over 4.8m and 4.98% zinc, 0.68% lead and 18.0 g/t silver over 5.0 metres in hole 92-16 north of the high priority area (non 43-101 compliant)

Grouse Mountain

- Just announced acquisition
- Immediately north, and adjacent to Lone Pine Property
- 7 claims contain 94 cells
- Additional drilling in 1984 the operators added a further 720,000 tonne low grade inferred resource to the existing 320,000 tonnes of 0.38% copper, 4.23% zinc, and 0.88 g/t silver (non 43-101 compliant)
- It has been reported that there has been over 1100 meters of underground development completed on the Property.

Ingenika / Swannell

Joint venture partner and operator is Selkirk Metals Corp. (TSX-V: SLK)

103 km north-northwest of Germansen Landing

Excellent access to the property as a result of intense logging activity in the area

Access to the property is gained by driving 216 km north from Mackenzie along the west side of Williston Lake on a main logging haulage road.

Ingenika Mine resource estimate completed in 1969: 22,677 tonnes grading 119.9 g/t silver, 9.8% lead and 6.1% zinc
